November 2**

**Ready to deepen your understanding of racism and white supremacy – and directly improve your patient care?**

### ***Why is this course for white people?***

White people need protected space to examine our whiteness, our place in white supremacy, and the ways we unwittingly contribute to racialized patient outcomes. In white “affinity”, we support one another to do this work and ensure that we do not cause harm to our BIPOC colleagues in our process.

### **Facilitators:**

Eve Gordon is a professional facilitator, mediator, and longtime anti-racism activist.

Aicha K. Scott is a KPSLN midwife and co-founder of TWP for Birth Equity.

Christine Cox-Jude is Assistant Chief Midwife and an equity leader within the GSAA.
